Backend / Software Engineering

2026 Computer Science graduate specializing in AI and ML, with current full-stack development experience at Teknikoz and a completed Product Support Engineering internship at Razorpay. Seeking fresher and junior engineering opportunities.

Skills

- Software & Backend: Python, Java, JavaScript, FastAPI, REST APIs, API Development, Microservices, System Design
- Databases & Data: Vector Databases, MongoDB, PostgreSQL, MySQL, Redis, SQL
- Cloud & DevOps: Google Cloud Platform (GCP), Docker, Git, GitHub, CI/CD, Linux
- Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
- LLM & AI Engineering: LangChain, LangGraph, Hugging Face Transformers, OpenAI, Google Gemini, Whisper, n8n

Experience

Teknikoz Software Private Limited - Full Stack Developer

Jul 2026 - Present

- Developed AI-enabled web applications and full-stack CRM solutions across frontend, backend, REST APIs, third-party integrations and application workflows.
- Built and enhanced TEKNIKOZ and sub-venture platforms with features, backend services, integrations, bug fixes and user-facing functionality across the software development lifecycle.

Razorpay Software Ltd. - Intern, Product Support Engineering

Sep 2025 - Jun 2026

- Reduced Post Payments support volume from 500+ to 40 tickets/month through automation, code optimization and root-cause fixes.
- Contributed to production development and feature enhancements for PGOS, supporting critical payment flows and reliability.
- Built an internal AI bug-monitoring and alerting system integrated with Coralogix, processing 1 crore (10 million) logs/day and reducing response latency by approximately 40%.

Selected projects

DASES - Descriptive Answer Sheet Evaluation System

- Agentic AI for automated answer-sheet evaluation combining OCR, LaTeX parsing, rubric-based reasoning, fine-tuned LLMs and LangGraph.
- Evaluated across 1,500+ students. Two patents drafted under university innovation initiatives.

Resume-JD Matcher

- Resume and job-description matching tool with 500+ users.

Internship Evaluator UPES Dashboard Prototype

- Dashboard prototype with 1,000+ actual users.

Education

University of Petroleum and Energy Studies (UPES), Dehradun, India

B.Tech. in Computer Science (Honours), Artificial Intelligence & Machine Learning

September 2022 - June 2026

Calculated overall GPA: 8.80/10 (credit-weighted semester SGPA's).
